

CPHI conferences announces the 5th Annual Pharma Pre-Connect Congress India

CPHI Conferences, a division of Informa Markets in India that hosts many successful pharmaceutical conferences in the country, has announced the 5th Annual Pharma Pre-Connect Congress India 2022, slated on 28th November at Crowne Plaza Mayur Vihar, Greater Noida.

Medicine spending in India and around the world is projected to grow in coming years, allowing Indian organisations to lead the sector and achieve a global leadership position. This will require a paradigm shift in the business model under which the industry operates. The industry needs to create models and initiatives to expand manufacturing capacity, invest in innovative technologies, focus on research and development, and distribution and export infrastructure.

The Pharma Pre-Connect will offer excellent opportunities to the Indian pharma and biopharma industry, as well as pharma manufacturers to push for new manufacturing practices and better visibility across the supply chain.

CPHI's 5th Annual Pharma Pre-Connect Congress India 2022 intends to touch upon the challenges and trends that will help innovate new products in India and enhance the manufacturing process and quality of products at par with international standards. It will discuss various aspects around regulations of biosimilars, R&D, clinical research, program management, and commercialisation for the pharmaceutical industry, among others. Driven by compelling content and speakers, the congress promises to be a platform for industry experts and decision-makers to discuss pertinent trends in the pharma industry, deliberate on critical concerns the industry faces today and offer innovative solutions that will continue to place India on the roadmap to success in the pharma industry.

The congress will also have practical case study insights from Indian and International experts and panel discussions with a Q & A session. The series of panel discussions will include trending topics such as *'Disrupting the pharmaceutical industry in the age of rapid technological growth'*, *'Paving the pathway for innovation in pharma R&D'* and *'Changing global dynamics & opportunities for enhancing India's pharma exports.'*

The conference will see participation from eminent speakers such as Mr Suresh Pattathil, Managing Director & General Manager, AbbVie India; Mr Amit Saluja, Senior Director and Center Head - Gandhinagar CoE, NASSCOM; Mr Sanjay Nandavadekar, Director IT, Cipla;

Mr Vickram Srivastava, Head Global Supply chain, Sun Pharmaceutical Industries Ltd amongst other key participants who will share their perspective about the various aspects of the pharma industry.
