

## Title: **Meet the Sponsors of PharmaReg AfriSummit 2022**

PharmaReg AfriSummit is an annual event that provides platform for medical device and pharmaceutical regulatory experts and industry professionals in the Africa to share insights and discuss about the latest updates in the regulations.

As silver sponsors of the event, Yalla RX by Pharma Global and our session sponsor Honeywell, they will be present at the summit to exchange strategized ideas, analysis & exclusive new information as well as to share top insights from their perspectives revolving around different aspects that relate to the regulatory affairs in the pharmaceutical industry.

To introduce Honeywell, it is a Fortune 100 technology company that delivers industry specific solutions that include aerospace products and services; control technologies for buildings and industry; and performance materials globally. Our technologies help aircraft, buildings, manufacturing plants, supply chains, and workers become more connected to make our world smarter, safer, and more sustainable.

Honeywell Forge is an enterprise performance management solution for digital transformation of operations. Honeywell Forge includes a mix of software products and enabling services that help companies use operational data to drive insights that improve processes, enhance productivity, support sustainability initiatives, and empower workers.

As for Track & Trace, it is a software solution that provides real-time visibility and reporting of products within a vehicle, a container, a palette, or a packaging box at the micro-level. It enables you to track products throughout the supply chain. In highly regulated industries like pharmaceuticals, chemicals, tobacco, alcohol, and explosives, this becomes critical.

To shed light about Yalla RX, it is an Innovative ecosystem for B2B pharma. Yalla RX is the modern e-com platform with smart solutions for all pharma sphere participants: pharma specialists and doctors, pharma and API manufactures, pharmacies, hospitals, and clinics.
